Tejas Gumgaonkar

Riverside, CA | tejassgg@gmail.com | +1 559-388-6490 | github.com/tejassgg | linkedin.com/in/tejas-gumgaonkar

Software Engineer with ~3 years building and maintaining secure, database-driven web applications, including current work as a full-stack developer inside a county government IT department. Experienced across C#/.NET Core, Node.js and React/TypeScript, with SQL Server/MySQL database performance tuning, DevSecOps security assessments (VAPT), and hands-on experience training and mentoring technical staff. Comfortable ramping up on unfamiliar frameworks and platforms quickly - has shipped production work across .NET, MERN/Next.js and has supported public-sector operations through workflow automation, observability dashboards, and documentations.

SKILLS

Programming Languages: C#, C++, JavaScript, TypeScript, Python, PowerShell, Angular, TSQL, SQL

Databases: MS SQL Server, MySQL, PostgreSQL, Entity Framework, LINQ, ADO.NET, MongoDB (NoSQL), Redis

Backend Frameworks: .NET Core, .NET MVC, .NET Framework, Web API, RESTful APIs, Node.js, Next.js, Express.js, Microservices, WCF

Frontend Web Technologies: React.js, Blazor, jQuery, Ajax, WebSockets, WPF, HTML5, CSS3, SCSS, Bootstrap, Tailwind CSS

Cloud & DevOps: Azure (OpenAI, Functions, App Services, CI/CD Pipeline, DevOps, TFS), Ansible (Infrastructure as Code), YAML, Git, GitHub

Security & Compliance: Vulnerability Assessment & Penetration Testing (VAPT), Secure Coding Practices, JWT, OAuth2, Role-Based Access Control (RBAC), Cookie/Session Handling, IAM & Active Directory

Testing, QA & Observability: Unit Testing, Postman, Swagger/OpenAPI, Performance & Load Testing (Autocannon), Application Performance Monitoring, Dynatrace, Database Performance Analyzer (DPA), Serilog

Tools: Visual Studio, VS Code, SSMS, Claude Code AI, Unity, Cursor, GitHub Copilot, n8n, npm, NuGet Packages, Figma

Soft Skills: SDLC, Technical Training & Documentation, Mentoring, Cross-Team Collaboration, Agile, Scrum, Code Review

AI/ML: TensorFlow, RAG, LLM Integration, Agentic AI Dev, NumPy, Pandas, Matplotlib, Deep/Reinforcement Learning, scikit-learn

WORK EXPERIENCE

IT Applications Developer II | County of Riverside — ***Riverside, CA*** | Mar 2026 - Present

- Develop and maintain complex enterprise applications for government utilizing C#, .NET Core, Blazor and SSMS.
- Reduced app load time by 93% (from 8s to 0.5s) by implementing server-side pagination in SQL Stored Procedures & Blazor QuickGrid.
- Automated workflow notifications and reply triggers using Microsoft Power Automate, integrating alerts directly into Microsoft Teams.
- Developed PowerShell scripts to automate recurring application asynchronous workflows, reducing manual operational overhead.
- Monitor database performance & troubleshoot bottlenecks using DPA, Implemented observability dashboards for high-availability apps.

Software Engineer | Persistent Systems Limited — ***Mumbai, IN*** | Jul 2021 - Aug 2023

- Started as Software Engineering Intern (Jan–Jul 2021) before converting to full-time.
- Designed reusable, scalable code using OOPs and MVC patterns for critical health insurance systems, modernizing legacy applications with C#, .NET, and RESTful Web APIs with JSON, XML, WCF & token-based authentication.
- Optimized 25+ SQL stored procedures using Entity Framework and ADO.NET with data modeling for enhanced efficiency.
- Improved critical API response time by 2.8s through performance optimization and event-driven architecture implementation.
- Led comprehensive application security assessment (VAPT), resolving 50+ vulnerabilities in production systems ensuring compliance.
- Mentored 6 interns on code comprehension and review practices, training them in ASP.NET MVC, C#, and jQuery fundamentals.
- Managed 22+ change requests delivering updates on schedule & enhancing full-stack development functionality.
- Enforced secure coding standards & version control practices across the SDLC using Azure DevOps and TFS for cross-team collaboration.
- Orchestrated deployment across 4 environments using IIS, Azure App Services/Functions & DevOps, following Agile/Scrum.

EDUCATION

California State University, Fresno | *Master of Science, Computer Science* — **Aug 2023 - Aug 2025**

Coursework: *Advanced Computer Security, Computer Architecture, Reinforcement Learning, Database Management, Data Structure & Algorithms*

GH Raisoni College of Engineering | *Bachelor of Engineering, Computer Science Engineering* — **Jul 2017 - May 2021**

ACADEMIC & PERSONAL PROJECTS

TeamLabs - Project Management Platform — **May 2025 - Present**

- Built AI-powered application using OAuth2, MERN Stack and Next.js with modern TypeScript & MongoDB implementation with Redis.
- Implemented RESTful services with JWT auth & WebSockets, real-time task tracking, RBAC, and Swagger/OpenAPI docs.
- Integrated AI with RAG using Gemini-AI SDK & LLMs with agentic workflows and prompt engineering for intelligent project reports.
- Implemented an Angular version of the same application with Dependency Injection (DI), Services & Event Streaming.
- Built a NestJS-based server implementation with modular architecture, dependency injection and TypeScript decorators; integrated Stripe webhook for subscription-based payments & refunds; applied Agile/Scrum with iterative code reviews and API documentation.

Research Project - Node.js Event Loop Efficiency Enhancement — **Jan 2025 – Aug 2025**

- Designed and implemented adaptive event batching system for Node.JS optimizing high-concurrency performance.
- Developed a simulation environment to collect and analyze performance metrics under various load conditions.
- Designed a hash map & queue into a custom C++ data structure to support O(1) event access in both sequential and categorized modes.
- Technologies used: C++, CMake, Node.js, JavaScript, LibUV, Autocannon for load testing, data visualization libraries.

AWARDS & CERTIFICATIONS

AI Agents Basics to Advanced | Packt Publishing - **Jul 2026**
Microsoft Copilot Fundamentals | Packt Publishing - **Apr 2026**
Introduction to Blockchain Technology and Applications | NPTEL - **Jun 2020**
